WHY?

WHAT IS TRUST?

ANNOUNCING THE LAUNCH OF THE SPECIAL
YOUTH ON TRUST AWARDS FOR 2022

WE WANT TO HEAR YOUR VIEWS!

The PERITIA project invites students from across Europe to share their views about the topic of public trust. For the Youth on Trust Awards you are asked to create a project in response to a question or issue you think is most important in relation to the topic of trust in social and political life.

Your project can be in the format of a film, podcast, blog post, short story, dialogue, or essay.

The Youth on Trust Awards are open for students between the ages of 13-18. There will be three prize categories for students in the following age groups: 13-14 / 15-16 / 17-18.

The winning entries will be published and awarded a trip to the heart of the European Union in Brussels.

We ask students from all around Europe to wear their thinking hats and share their thoughts on the topic of public trust. Your project might question: **what we should trust on social media; what is trust; how we can spot fake news and misinformation; what qualities are important for us to trust scientists or politicians; should we trust experts; can we trust climate science; why do we trust some people more than others; can trust save our lives?...**

These are only indicative questions, and we encourage you to think of your own questions on the topic of public trust. After all, part of being a good thinker is to raise questions that nobody else has raised.
